Re: **Appeal of Verification of Signatures for Petition to Recall Sara Schmitz**
Appeal of Verification of Signatures for Petition to Recall Matthew Dent

Dear Secretary Aguilar and Ms. Hardy,

On behalf of the Committees to Recall Incline Village General Improvement District (“IVGID”) Trustees Sara Schmitz and Matthew Dent (the “Committees”) we hereby file this appeal pursuant to NRS 293.12793 and NRS 293.12795. This appeal challenges the signature verification processes used by the Washoe County Registrar of Voters Department (the “Washoe County Registrar”) to verify whether the Petitions to Recall Trustees Schmitz and Dent (the “Petitions”) gathered enough signatures.

As you are aware, you sent the Committees correspondence on October 24, 2023, informing them that both Petitions failed to gather the requisite signatures. As this letter shows, significant concerns exist regarding whether the signatures were properly verified and/or rejected. Moreover, it is wholly unclear what criteria the Washoe County Registrar used to reject signatures. The Washoe County Registrar rejected 458 signatures for Matthew Dent and 522 signatures for Sara Schmitz—a substantial number. Thus, the Washoe County Registrar rejected approximately 980 signatures with little explanation as to the criteria it applied to reject each signature. This letter shows that—whatever criteria was applied by the Washoe County Registrar—significant inconsistencies exist in the application of the rejection codes. Specifically, People that signed both Petitions had their signatures rejected for different reasons without any explanation.

The Right to Recall Public Officials is guaranteed by the Nevada Constitution. *See Nev. Const. art. 2, § 9.* Given that the People’s right to recall is affected by the processes used by the Washoe County Registrar to reject signatures, scrutiny by the Nevada Secretary of State’s Office is necessary to ensure that all laws were complied with in the signature verification process. Unfortunately, it appears that scant criteria have been published to ensure a uniform and accurate signature verification process for recall petitions. Thus, the Washoe County Registrar and/or the Nevada Secretary of State should consider implementing ordinances and/or regulations that provide meaningful and objective criteria to complete the signature verification process. For now, however, we respectfully request that the Secretary of State investigate the signature verification process used for these Petitions, which is the remedy conferred by NRS 293.12793. Thereafter,

Appeal to Nevada Secretary of State
November 1, 2023
Page 2

the Secretary of State should order the Washoe County Registrar to reverify the signatures. *See* NRS 293.12795(2).

In this appeal, we first state the facts as we understand them. We then include a legal analysis. This analysis includes the information required by NRS 293.12793, which are the reasons for the appeal and a statement of the number of signatures that the Washoe County Registrar determined were invalid.

I. Statement of Facts

The Committees are grassroots efforts to inspire lasting and positive change in the Incline Village Government. For this reason, they filed the Petitions to recall Sara Schmitz and Matthew Dent. As noted above, the Nevada Secretary of State sent correspondence to the Committees on October 24, 2023, informing them that there were insufficient signatures for the Petitions. The Petition to Recall Matthew Dent received 1,726 out of the required 1,801 signatures. The Petition to Recall Sarah Schmitz received 1,687 out of the required 1,801 signatures. A complete list of the signatures is attached to this letter. *See* Exhibit 1 (Sara Schmitz); Exhibit 2 (Matthew Dent). The Committees received these files from Ms. Jamie Rodriguez, the Washoe County Registrar of Voters, on October 26, 2023.

These files also show that, for Sara Schmitz's Petition, 522 total signatures were rejected. The breakdown of the rejections are as follows: (1) 43 signatures were rejected for address corrections; (2) 256 signatures were rejected for having an invalid date; (3) 103 signatures were rejected for being out of the date range; (4) 22 signatures were rejected for being duplicates; (5) 23 signatures were rejected for being "fatal"; (6) 24 signatures were rejected because the signer was not registered; (7) 16 signatures were rejected because the signer was not in the district; (8) eight signatures were rejected for "other reasons"; (9) 4 signatures were rejected because the signature did not compare to the signature on record; and (10) 23 signatures were withdrawn. This information is contained in Exhibit 3.

For Matthew Dent's Petition, 458 total signatures were rejected. The breakdown of the rejections are as follows: (1) 45 signatures were rejected for address corrections; (2) 155 signatures were rejected for having an invalid date; (3) 123 signatures were rejected for being out of the date range; (4) 28 signatures were rejected for being duplicates; (5) 27 signatures were rejected for being "fatal"; (6) 27 signatures were rejected because the signer was not registered; (7) 15 signatures were rejected because the signer was not in the district; (8) eight signatures were rejected for "other reasons"; (9) three signatures were rejected because the signature did not compare to the signature on record; and (10) 20 signatures were withdrawn. This information is contained in Exhibit 4.

Notably absent from all the communications that the Committees received from Washoe County was any description of the processes that were used to assign signatures to each category. Thus, at this time, it is unclear what methodologies were used to reject signatures. Likewise, it is unclear what processes were used to cure signatures, and whether Washoe County gave sufficient

Appeal to Nevada Secretary of State
November 1, 2023
Page 3

notice to people such that their rejected signatures could be cured. Thus, there are significant concerns that the Washoe County Registrar's process has lacked meaningful transparency such that the voter verification process was objectively and reasonably conducted.

II. Reasons for Appeal

The right of the People to recall public officials is created by the Nevada Constitution. *See Nev. Const. art. 2, § 9.* The Nevada Supreme Court has held that "recall statutes should be liberally construed with a view toward promoting the purpose for which they are enacted." *Cleland v. Eighth Judicial Dist. Court*, 92 Nev. 454, 455-56, 552 P.2d 488, 489 (1976). "Nevada's recall right was created by constitutional amendment in 1912 providing the public with an additional check on its elected officials." *Citizens for Honest & Responsible Gov't v. Sec'y of State*, 116 Nev. 939, 947, 11 P.3d 121, 126 (2000). The Legislature may enact statutes that "aid the operation" of the People's recall right. *See Nev. Const. art. 2, § 9.* "[A]ny statutory provision intended to safeguard the operation of recall procedures aids in the operation thereof." *Citizens for Honest & Responsible Gov't*, 116 Nev. at 947, 11 P.3d at 126-27 (internal quotation marks omitted). In sum, the People's recall right is a Constitutional Right in Nevada, and statutes are construed toward promoting the purpose for which it was enacted, *i.e.*, to provide the public with an additional check on its elected officials.

This appeal challenges the propriety of the signature verification process that the Washoe County Registrar used for the Recall Petitions. Therefore, this appeal is guided by NRS 293.12793, which provides:

1. If the Secretary of State determines that the total number of signatures that the county clerks have certified pursuant to NRS 293.1277 or 293.1279 is less than 100 percent of the number of registered voters needed to make the petition sufficient, the person who submitted the petition may contest the verification of the signatures by filing an appeal with the Secretary of State. The appeal must:

(a) Be filed within 5 working days after receipt of notification of the determination of the Secretary of State;

(b) Include each reason for the appeal; and

(c) Include a statement of the number of signatures, if any, that the county clerk determined were invalid.

2. The Secretary of State shall:

Appeal to Nevada Secretary of State
November 1, 2023
Page 4

(a) If the petition was circulated pursuant to chapter 306 of NRS, immediately notify the public officer who is the subject of the petition of the appeal by the person who submitted the petition; and

(b) Consider the allegations and conduct an investigation, if necessary.

Then, NRS 293.12795 provides:

1. If an appeal is based upon the results of the verification of signatures on a petition performed pursuant to NRS 293.1277 or 293.1279, the Secretary of State shall:

(a) If the Secretary of State finds for the appellant, order the county clerk to recertify the petition, including as verified signatures all contested signatures which the Secretary of State determines are valid. If the county clerk has not yet removed each name as requested pursuant to NRS 295.055 or pursuant to NRS 306.015 for a petition to recall a public officer who holds a statewide office, the county clerk shall do so before recertifying the petition.

(b) If the Secretary of State does not find for the appellant, notify the appellant and the county clerk that the petition remains insufficient.

2. If the Secretary of State is unable to make a decision on the appeal based upon the documents submitted, the Secretary of State may order the county clerk to reverify the signatures.

3. The decision of the Secretary of State is a final decision for the purposes of judicial review. The decision of the Secretary of State may only be appealed in the First Judicial District Court.

NRS 293.12795 (emphasis added).

As will be shown in this appeal, the Committees believe that the Nevada Secretary of State should: (1) conduct an investigation into the Washoe County Registrar's signature verification process, *see* NRS 293.12793(2)(B), and (2) order the Washoe County Registrar to reverify the signatures, *see* NRS 293.12795(2). The following arguments show why this relief is warranted.

///
///
///
///
///

A. Reasons for Appeal

1. The Washoe County Registrar does not appear to have published criteria on how it applies voting codes.

The Committees' strongest argument is contained in the next section of this analysis. Yet, to show the strength of this analysis, it is important to first explain that the Washoe County Registrar applied codes to the signatures to the Petitions to reject them. As the next section will show, these codes were applied *inconsistently* for the same signers. In other words, for one Petition the person's signature was accepted, and for the other Petition the same person's signature was rejected. However, before explaining this inconsistent application of the signature verification process, it is first necessary to define the nature and extent of the codes. As Exhibits 1-4 show, it appears that the Washoe County Registrar used the following codes to reject ballots:

- DETP: The date on the petition is allegedly invalid.
- NR: The signer of the petition is allegedly not registered to vote.
- WTHDR: A withdrawal notice was filed.
- OTHER: The signature is invalid and void.
- DET R: The signature is out of the date range.
- DUP S: The signature was a duplicate.
- NT DI: The signer of the petition does not live in the district.
- SIG: The signature on the petition does not match the signature on file.
- FP: Fatal pending. It is unclear what this code means.
- ADD C: The address of the signer is invalid.

It is wholly unclear what criteria are used to reject a signature based on the foregoing codes. There appears to be no statute, regulation, ordinance, or published guidance on the application of these codes. Federal Courts have recognized that "striking irregular signatures . . . for obscure or unknown reasons on the basis of evidence unavailable to the parties and without the opportunity of effective response by those adversely affected by the checkers' investigations" violates the Due Process Clause of the Fourteenth Amendment." *Briscoe v. Kasper*, 435 F.2d 1046, 1057 (7th Cir. 1970). The Nevada Supreme Court has suggested that the Nevada Secretary of State should issue clear and controlling information to show the criteria used to gauge signature verifications. *Las Vegas Convention & Visitors Auth. v. Miller*, 124 Nev. 669, 697, 191 P.3d 1138, 1157 (2008). Thus, it is unclear how these codes are applied, and more importantly, whether they are applied in a consistent manner. As explained below, it appears that the Washoe County Registrar did not apply these codes in a consistent manner to verify the signatures for these Petitions.

2. It appears that the Washoe County Registrar applied its rejection codes inconsistently.

Even if the Washoe County Registrar maintains objective and repeatable criteria for verifying signatures, it appears that signatures were inconsistently rejected for these Petitions.

Appeal to Nevada Secretary of State
November 1, 2023
Page 6

Undersigned counsel examined the list of recall signatures and found significant discrepancies in a random sample¹ of the codes. These are now explained:

- Karl Allen Thornton signed both Petitions. On both petitions, he listed his address as 878 Southwood Boulevard, Unit 8. On the Petition to Recall Sara Schmitz his signature was valid. On the Petition to Recall Matthew Dent, his signature was rejected because of the “ADD C” code. *Compare*, Exhibit 1 at pp. 4, *with* Exhibit 2 at pp. 4.
- Benjamin Robert Kavinoky signed both Petitions. On the Petition to Recall Sara Schmitz his signature was valid. On the Petition to Recall Matthew Dent, his signature was rejected because of the “SIG” code. *Compare*, Exhibit 1 at pp. 10, *with* Exhibit 2 at pp. 14.
- John Allen Mengarelli signed both Petitions. On the Petition to Recall Sara Schmitz, his signature was rejected because of the “SIG” code. On the Petition to Recall Matthew Dent, his signature was deemed valid. *Compare*, Exhibit 1 at pp. 12, *with* Exhibit 2 at pp. 11.
- James Edward Matthews signed both Petitions. On the Petition to Recall Sara Schmitz his signature was rejected because of the “DTE P” code. On the Petition to Recall Matthew Dent, his signature was rejected because of the “DTE R” code. *Compare*, Exhibit 1 at pp. 41, *with* Exhibit 2 at pp. 25.
- Donna M. Stremski-Wells signed both Petitions. On the petition to Recall Sara Schmitz her signature was rejected because of the “OTHR” code. On the petition to Recall Matthew Dent, her signature was rejected because of the “DTE P” code. *Compare*, Exhibit 1 at pp. 1, *with* Exhibit 2 at pp. 48.
- Sarah Elizabeth Berg signed both Petitions. On the Petition to Recall Sara Schmitz, her signature was valid. On the Petition to Recall Matthew Dent, her signature was rejected because of the “FP” code. *Compare*, Exhibit 1 at pp. 4, *with* Exhibit 2 at pp. 4.
- Carolyn Ann Kane signed both Petitions. On both petitions, she listed her address as 120 Country Club Drive #32. On the Petition to Recall Sara Schmitz, her signature was valid. On the Petition to Recall Matthew Dent, her signature was rejected because of the “ADD C” code. *Compare*, Exhibit 1 at pp. 1, *with* Exhibit 2 at pp. 21.
- Bryan Golombik signed both petitions. On the Petition to Recall Sara Schmitz, his signature was valid. On the Petition to Recall Matthew Dent, his signature was rejected because of the “SIG” code. *Compare*, Exhibit 1 at pp. 11, *with* Exhibit 2 at pp. 15.

¹ Undersigned counsel randomly selected names from each Petition and compared them. In all fairness, codes were applied to some signatories consistently in both Petitions. By no means is this an exhaustive list of the discrepancies, and a more thorough analysis would be presented in a petition for judicial review. Rather, this list is illustrative of the inconsistencies that warrant relief in the form of an investigation by the Nevada Secretary of State. *See* NRS 293.12793(2)(B).

- Kristen Sura signed both Petitions. On the Petition to Recall Sara Schmitz, her signature was rejected because of the “DTE P” code. On the Petition to Recall Matthew Dent, her signature was valid. *Compare*, Exhibit 1 at pp. 26, *with* Exhibit 2 at pp. 28.
- Alan Y. Schaevitz signed both Petitions. On the Petition to Recall Sara Schmitz, his signature was rejected because of the “FP” code. On the Petition to Recall Matthew Dent, his signature was valid. *Compare*, Exhibit 1 at pp. 6, *with* Exhibit 2 at pp. 15.

Undersigned counsel and the Committees expressly decline to attribute any malice or wrongdoing to the Washoe County Registrar. Verifying the signatures seems like an arduous task that may naturally lead to mistakes. Yet, the Committees do believe that the foregoing description of the discrepancies in signature rejections shows that the codes were applied inconsistently and therefore arbitrarily or capriciously. Again, the purpose of this appeal is to protect the People’s recall right. If signatures were erroneously rejected, then the People’s recall right has been infringed. As noted above, “Nevada’s recall right was created by constitutional amendment in 1912 providing the public with an additional check on its elected officials.” *Citizens for Honest & Responsible Gov’t*, 116 Nev. at 947, 11 P.3d at 126.

The Washoe County Registrar is empowered by statute to verify signatures for a Recall Petition. *See* NRS 306.035(1); NRS 306.040(1). Indeed, these statutes contemplate that the signature verification process for a Recall Petition must be conducted in accordance with NRS 293.1276 to NRS 293.1279 *by the county*. In the law, it is well known that a public official may not exercise its discretion under a statute in an arbitrary or capricious manner. *See Round Hill Gen. Improvement Dist. v. Newman*, 97 Nev. 601, 603-04, 637 P.2d 534, 536 (1981). An “abuse of discretion is ‘[a] clearly erroneous interpretation of the law or a clearly erroneous application of a law or rule.’” *State v. Eighth Judicial Dist. Court (Armstrong)*, 127 Nev. 927, 932, 267 P.3d 777, 780 (2011) (alteration in original) (quoting *Steward v. McDonald*, 958 S.W.2d 297, 300 (Ark. 1997)). A “capricious exercise of discretion is one . . . ‘contrary to the evidence or established rules of law.’” *Id.* at 931-32, 267 P.3d at 780 (quoting *Capricious, Black’s Law Dictionary* (9th ed. 2009)).

Here, and respectfully, it appears that the Washoe County Registrar exercised its discretion in the signature verification process—under NRS 293.1276 to NRS 293.1279—in an arbitrary and capricious manner. Indeed, it seems clearly erroneous that a statute would be applied in a manner whereby the same signer to two different petitions would have their signature rejected for different reasons. Or, alternatively, the same signature was found valid for one Petition but not the other. Thus, the foregoing description of the inconsistent application of the rejection codes shows the arbitrary nature of the code application. This is also capricious because it is well known that the government should exercise its discretion in a consistent manner.

Indeed, Federal Courts have recognized that “striking irregular signatures . . . for obscure or unknown reasons on the basis of evidence unavailable to the parties and without the opportunity of effective response by those adversely affected by the checkers’ investigations” violates the Due

Process Clause of the Fourteenth Amendment.” *Briscoe*, 435 F.2d at 1057. Again, the Nevada Supreme Court has suggested that the Nevada Secretary of State should issue clear and controlling information to show the criteria used to gauge signature verifications. *Miller*, 124 Nev. at 697, 191 P.3d at 1157. Here, it is entirely unclear what criteria the Washoe County Registrar used to reject the petitions. This is crucial because—as the foregoing analysis identifies—the same People had their signatures rejected for different reasons. Or, alternatively, the same signature was accepted in one Petition but rejected in the other Petition. This indicates that the rejection codes were not applied uniformly, thereby showing that there are serious concerns about the legal propriety of *this* voter verification process. Therefore, the Nevada Secretary of State should investigate the propriety of the signature verification process for these Petitions.

3. It is unclear whether signatories had a sufficient opportunity to cure.

Based on correspondence received from Washoe County, it appears that 88 signatures were rejected from the Petitions because of concerns with an improper address. *See* Exhibits 2, 4. Pursuant to NAC 293.185,

If, while verifying signatures pursuant to NRS 293.1277, a county clerk discovers that an address included with a signature does not match the address for the registered voter who signed the petition as indicated in the file of applications to register to vote, **the clerk shall notify the registered voter of the discrepancy.** The notification required pursuant to this subsection may be accomplished by the county clerk posting notice of the discrepancy on the county clerk’s website. Such notification must include, without limitation, the name of the registered voter and information relating to how the registered voter may contact the county clerk to resolve the discrepancy.

Here, upon information and belief, roughly 88 signatures were rejected because the address of the signer did not match the address on file. The Washoe County Registrar has an affirmative duty to ensure that any signatory with an address discrepancy had an opportunity to cure. Here, it is unclear whether the People with rejected signatures were given sufficient time to cure. Therefore, it is unclear whether the Washoe County Registrar complied with NAC 293.185. Thus, the Secretary of State should investigate whether the Washoe County Registrar complied with NAC 293.185 by giving voters sufficient notice and an opportunity to cure address discrepancies.

More importantly, however, the Committees respectfully submit to the Secretary of State that the provisions of NAC 293.185 should be extended to *all* codes that were used by the Washoe County Registrar. Courts will “defer to an agency’s interpretation of its governing statutes or regulations if the interpretation is within the language of the statute.” *Dutchess Bus. Servs., Inc. v. Nevada State Bd. of Pharm.*, 124 Nev. 701, 709, 191 P.3d 1159, 1165 (2008). Thus, it is respectfully submitted that NAC 293.185—in this case—should be interpreted to effectuate the purpose of the *right* of the recall statutes. *See* Nev. Const. art. 2, § 9. Again, “recall statutes should

Appeal to Nevada Secretary of State
November 1, 2023
Page 9

be liberally construed with a view toward promoting the purpose for which they are enacted.” *Cleland v. Eighth Judicial Dist. Court*, 92 Nev. 454, 455-56, 552 P.2d 488, 489 (1976).

Here, it is respectfully submitted that all People with rejected signatures should have been given notice of the rejection and an opportunity to cure under the plain meaning of NAC 293.185, which does not bar curing for signatures that are rejected on a basis other than an address discrepancy. By allowing all signatories the right to cure a rejected signature, the People’s recall right would be strengthened and preserved. For these Petitions, it is unclear whether most signatories were given sufficient notice of the rejections. Thus, the Secretary of State should investigate whether People with rejected signatures were given sufficient opportunity to cure. If the Secretary of State ultimately orders reverification, it should also order Washoe County to allow sufficient time for an opportunity to cure.

B. Statement of the number of signatures deemed invalid.

As explained above, for Sara Schmitz’s Petition, 522 total signatures were rejected. The breakdown of the rejections are as follows: (1) 43 signatures were rejected for address corrections; (2) 256 signatures were rejected for having an invalid date; (3) 103 signatures were rejected for being out of the date range; (4) 22 signatures were rejected for being duplicates; (5) 23 signatures were rejected for being “fatal”; (6) 24 signatures were rejected because the signer was not registered; (7) 16 signatures were rejected because the signer was not in the district; (8) eight signatures were rejected for “other reasons”; (9) 4 signatures were rejected because the signature did not compare to the signature on record; and (10) 23 signatures were withdrawn. This information is contained in Exhibits 1 and 3.

For Matthew Dent’s Petition, it is our understanding that 458 total signatures were rejected. The breakdown of the rejections are as follows: (1) 45 signatures were rejected for address corrections; (2) 155 signatures were rejected for having an invalid date; (3) 123 signatures were rejected for being out of the date range; (4) 28 signatures were rejected for being duplicates; (5) 27 signatures were rejected for being “fatal”; (6) 27 signatures were rejected because the signer was not registered; (7) 15 signatures were rejected because the signer was not in the district; (8) eight signatures were rejected for “other reasons”; (9) three signatures were rejected because the signature did not compare to the signature on record; and (10) 20 signatures were withdrawn. This information is contained in Exhibits 2 and 4.

III. The Committees reserve the right to raise additional arguments in a petition for judicial review if this appeal is unsuccessful due to the lack of public records.

Please be advised that NRS 293.12793 creates a five-day deadline to file this appeal with your Office. The Nevada Public Records Act (“NPR”) also creates a five-day deadline for the disclosure of public records upon request. NRS 239.0107(1); NRS 239.010(4). Thus, it was impossible for the Committees, by and through counsel, to obtain public records within the timeline necessary to file this appeal. The Committees intend to file Public Records Requests contemporaneously with this appeal to obtain documents that are relevant to the signature

Appeal to Nevada Secretary of State
November 1, 2023
Page 10

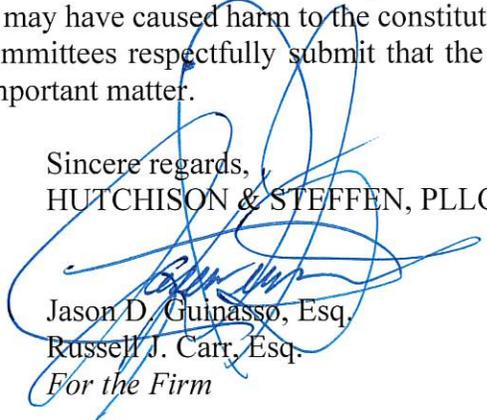

verification. Therefore, the Committees reserve the right to assert new arguments, or withdraw existing arguments, if a petition for judicial review is ultimately necessary pursuant to NRS 293.12795. The lack of public records makes it difficult for the Committees to prove or disprove the propriety of the voter verification process; thus, the Committees reserve the right to ultimately include new arguments and evidence in a petition for judicial review. *See generally Citizens for Honest & Responsible Gov't*, 116 Nev. at 952, 11 P.3d at 129 (stating that it was not error for the district court to allow additional evidence in the district court proceedings). In sum, the Committees reserve the right to raise new arguments and present new evidence, as discovered, in a petition for judicial review.

IV. Conclusion and Requested Remedy

Time is of the essence for the Committees to effectuate the right to recall. Thus, although no timeline is set by NRS 293.12793-.12795 for the Secretary of State's Office to resolve this appeal, the Committees respectfully asks for this appeal to be resolved as expeditiously as possible based on existing resources. Respectfully, the Secretary of State should: (1) conduct an investigation into the Washoe County Registrar's signature verification process, *see* NRS 293.12793(2)(B), and (2) order the Washoe County Registrar to reverify the signatures, *see* NRS 293.12795(2). If the Secretary of State agrees that voters lacked sufficient time to cure their signatures pursuant to NAC 293.185, it should order the Washoe County Registrar to allow curing. This relief will preserve the People's constitutional right to recall.

In conclusion, there appear to be significant inconsistencies in the signature verification process for these Petitions. Such inconsistencies may have caused harm to the constitutional right of the People to recall public officials. The Committees respectfully submit that the foregoing arguments show that relief is warranted in this important matter.

Sincere regards,
HUTCHISON & STEFFEN, PLLC
