MISSION STATEMENT

Social Work Students for the Advancement of Human Rights is dedicated to advancing the implementation of the Social Work Code of Ethics and the Declaration of Human Rights in real-world scenarios. We strongly believe in our Social Work values, as well as diversity, equity, inclusion, and ensuring that vulnerable groups are represented when human rights are on the line. Today we are committed to aiding the Palestinian people who are in dire need in the face of war crimes and genocide. We are committed to a ceasefire, providing humanitarian aid, and freedom from oppression for the people of Palestine.

- [Social Work Code of Ethics](#)
- [Social Work Competencies](#)
- [International Human Rights](#)

This is a safe space, but this is also a brave space. Any form of engagement we do is grounded in Humanistic Theory and our Social Work Competencies, Code of Ethics, and International Human Rights. Therefore, we ask that what we do remains respectful, inclusive, anti-racist, and culturally grounded.

This group & protest are not sponsored by the UNR School of Social Work - [this is student-initiated.](#)

[Student Rights, Expression, and Responsibility](#)

The Center for Student Engagement and ASUN created this website to underscore both the power and fragility of free speech and the role students play in ensuring its responsible use on our campus and within our democracy.
